DR. MARGUERITE CONNOLLY
SUPERINTENDENT OF SCHOOLS

March 6, 2020

Dear Weston Community,

This afternoon we received a communication from a Middle School parent that he/she was exposed to the COVID-19 (coronavirus). The parent reported that he/she is not feeling well, but there is no confirmation of COVID-19. We will be closing Weston Middle School, including the gym and pool, and canceling all weekend activities at WMS so the building can be thoroughly cleaned and disinfected. The Middle School will reopen Monday morning.

I want to reiterate that there is no confirmed case of COVID-19; however, given the circumstances across the Commonwealth and the world, we are being proactive and cautious. We will continue to work with the Weston Health Department to monitor the situation and communicate any updates as they arise.

Sincerely,

Dr. Midge Connolly
Superintendent
