

FIRE PREVENTION

Fire prevention measures in the Weston Public Schools shall be administered in compliance with the state and local safety codes and the directives of the State Fire Marshal and the Weston Fire Department.

It shall be the responsibility of the Director of Facilities to see that all staff members are kept informed of current state fire prevention regulations and the recommendations of Weston fire officials.

When school property is in use for purposes other than instruction - i.e., athletic events, student performances, or use by non-school groups - those in charge of the building at the time, as designated by the school Principal or established by system policy, shall be responsible for the users' compliance with fire prevention directives and measures.
