

PURCHASING

It shall be the responsibility of the Superintendent:

- To procure materials, supplies, equipment, and services at the lowest possible cost consistent with the quality necessary for the proper operation of the District, thereby attaining the maximum value for each public dollar spent;
- To maintain the District's reputation for fairness and integrity and to promote impartial and equal treatment to all who wish to conduct business with the District;
- To encourage a mutually cooperative relationship with requesting departments, recognizing that successful purchasing is a result of team planning and effort.

The acquisition of materials, equipment, and services will be centralized in the Superintendent's office of the school district.

The Superintendent will designate the District's purchasing agent. They will develop and administer the purchasing program for the schools in keeping with legal requirements and within the adopted school budget.

School purchases will be made only on official purchase orders approved for issuance by the appropriate unit head and signed by the Superintendent or designee, with such exceptions as may be made by the latter for emergency purchases.

Authority for the purchase of materials, equipment, supplies, and services is extended to the Superintendent through cost-center appropriation as part of the District budget process.

The purchase of items and services within the cost-center appropriation requires no further Committee approval except when by law or by Committee policy.
