Dear 9th Grade Parents/Guardians and Student

Science MCAS testing will take place for 9th graders next Tuesday and Wednesday, **June 4th and 5th.**

As a parent/guardian of a 9TH grader you should be aware of the following:

- **All students will remain in the testing room until 10:15.** If a student is done at this time he/she will be dismissed. On Tuesday he/she may go to the cafeteria. Lunch is at 11:15. On Wednesday, June Academy Previews begin at 10:15.

- Students may bring a textbook, (for a non-Science class), to do work after completing the MCAS test.

- Students are not allowed access to a cell phone or any other electronic device during the test. All cell phones will be collected before testing starts, including Apple/smart watches. It is suggested that students leave these watches at home on the testing days.

- Students may use a calculator on the Science MCAS. We will have extras to loan out for any student without one.

Feel free to contact us if you have any questions or concerns.

Sincerely,

Anthony A. Parker Principal

TUESDAY, JUNE 4TH

8:45-10:15 MCAS TESTING-FRESHMEN
