

Elective Courses for WHS Freshman Year

Below is a list of all the courses that are available to you as a ninth grader. In addition to English, History, Math, Science, Language, Physical Education, Health, and Digital Literacy, most students need at least three semesters of electives (6 credits) to get to the minimum 33.5 credits. For example, if you wanted to take Chorus, which meets all year (two semesters), you must also choose one additional semester-long elective. You could also take three semester-long electives. (*If you do not want 6-9 study halls in one semester, you should sign up for 8 credits of electives.*) Students with Academic Strategies credits may only be able to fit one or two electives (2-4 credits), since the maximum number of credits a student can fit is 40. Please note that on your course registration form, you must provide alternate courses in case one of your primary choices can't be scheduled.

Listed below are the elective courses available to freshmen. Please refer to the Program of Studies for course descriptions. You can access the Program of Studies through the Weston High School website – Academics page.

Course 291CS	INTRODUCTION TO ECONOMICS <i>(not running in 2023-24)</i>	Semester	2.5 Credits
