Dear Weston Middle School Parents/Guardians of Eighth Grade Students:

Despite the weather and early dismissal today, we are excited to share that we are on for this evening! The evening kicks off at 6:30pm with a live webinar portion. Following a few introductory words from the administration and Director of Guidance, Ms. Marla Schay, you are invited to jump into various department head/director's zoom rooms to engage in Q and A. The zoom links, and pre-recorded informational department videos can all be found here. All breakout rooms will be open at the same time, so please feel free to 'bounce' from department head/director to department head/director.

If you are not able to attend this evening we will share the recording by the end of the week and we invite you to email department heads/directors directly with any further inquiries.

Once again, our hope is to discuss learning standards, courses, and course sequences while also sharing several special aspects, programs, and offerings. The WHS Curriculum Night is an evening that deals exclusively with the 9th grade course of study and experience. Please follow this link to access the 23-24 Program of Studies. (Please note, this is now the current Program of Studies).

See you soon!

Paul Peri and Jennifer Knight
