

2010-2011 Budget Guidelines

We are fortunate to live in a town that both demands and supports an excellent school system. The School Administration has identified system needs to ensure continued excellence. These needs are summarized in a comprehensive Long Range Plan approved by the School Committee. The following general guidelines are meant to assist the School Administration in preparing the budget for fiscal year 2011. These guidelines reflect the Town's desire to maintain the overall strength of the school system by supporting the implementation of the Long Range Plan while recognizing continuing local and general economic challenges.

Preserve Excellence in Curriculum and Instruction

Execution of the Long Range Plan requires that we provide adequate resources and funding for major initiatives: In Fiscal Year 2011 this includes continued support for implementation of Differentiated Instruction and the Global Initiative. At the core of our efforts will be preserving the quality of our programs and services that enable all students to reach high standards and expectations, in addition to achieving adequate yearly progress toward 2014 No Child Left Behind (NCLB) performance goals.

Maintain a Safe and Secure Environment and Infrastructure

The budget should continue to support safe, secure and educationally sound school environments, while seeking energy conservation and appropriate efficiencies to reduce costs. We should continue to collaborate with the Town to achieve economies of scale in the maintenance and operation of our facilities. We should continue routine maintenance of our facilities, regular building reviews and the multi-year capital project plan. Technology planning should assess the needs of all networking and other infrastructure as it relates to system security and optimization.

Maintain the Rate of Budget Growth at a Responsible Level

The School Administration must continue its sensitivity to the Town's short and long-term financial constraints, including the tax burden of budgetary decisions and the uncertainty of state and federal funds. Our efforts this year should reflect the progress we have made, with the support of the community, in right-sizing our operations over the past several budgets. Staffing levels should be regularly assessed to be sure that they reflect changes in enrollment levels. Attention must be focused on minimum class size policy, especially for course offerings that are not part of the graduation requirements. Variations from the minimum class size policy will require the approval of the Superintendent and notice to the School Committee. Primary consideration should be given to offsetting budget reductions in support of program enhancements, as we anticipate continued Town-wide budgetary pressures in fiscal year 2011.
