

FACILITIES PLANNING

School Building Committee

The Town has established a Permanent Building Committee (PBC) to oversee specific building projects in the Town, including school buildings. The PBC acts as the administrative authority for the projects within its jurisdiction. Prior to the approval by the Town Meeting of a specific school project, the School Committee will establish school building committees from time to time to assess the need for new facilities or improvements to existing school facilities. Such school building committees shall have the following responsibilities:

1. To study and make recommendations to the Town with respect to school building needs.
2. To review thoroughly with the Superintendent and the School Committee the educational requirements in relation to school buildings.
3. To review previous studies and initiate needed studies with or without consultative assistance.
4. To employ the services of architects and cost estimators and such other professional assistance as it may deem necessary.

Staff Planning

Arrangements will be made by the Superintendent, working through Principals, for the school staff to contribute in the planning of new school buildings. Teachers will be given the opportunity to submit suggestions for possible inclusion in the educational specifications.

Adopted November 21, 2011
