

MEMORIALS AND PLAQUES

The School Committee acknowledges the usefulness of tasteful and appropriate memorials, plantings, ornaments and plaques in recognizing and illustrating, to past, present and future students, staff, and community members, significant contributions and contributors to the educational and civic enterprise at the local, regional, national and international level.

The Committee, as part of its oversight of physical plant, directs the Superintendent to establish, and review from time to time, criteria and procedures for receiving and reviewing proposals for such items, but reserves to itself the responsibility for final acceptance or rejection of the proposals.

The Committee furthermore reserves the right to cause, without consideration or payment to any donor or donor organization, the removal or modification of memorials, plantings, ornaments, and plaques if in its judgment it be in the public interest to do so.

Adopted: November 21, 2011
