

PUBLIC SOLICITATIONS AND ADVERTISING IN THE SCHOOLS

The Weston Public Schools shall cooperate with organizations in order to help them forward activities which serve in the judgment of the Superintendent or designee to enrich the experiences of children. A determination by the Superintendent, or his/her designee, will be made in each instance regarding whether the overall effect created and time consumed will foster or detract from achievement of the stated educational goals of the Weston Public Schools.

The schools will not distribute literature nor provide access to students and staff, nor to student and staff lists, for organizations or persons whose primary purpose is commercial or not school based. However, this shall not be interpreted to include such contacts as fall into the normal business functions of the schools or of school organizations

Adopted: November 21, 2011
